Westbrook Crescent,
East Barnet,
EN4 9AR

Hasmonean High School for Girls

Main Entrance
2 Page Street
London
NW7 2EN

King Solomon High School,

Main Entrance
Forest Road, Barkingside,
Ilford,
Essex. IG6 3HB

- Each applicant will be measured from their Home Address (using first line and postcode of Home Address) to the main entrances of the schools listed above, using the web-based mapping service Mapquest.
- For Hasmonean, applicants will be identified by gender and measured against the appropriate site.
- SEN, Siblings, and feeder school applicants will also not be measured for criterion 3.
- If Mapquest shows two schools, one of which is Yavneh College, as being equidistant and nearest to an applicant's Home Address, then the applicant will be deemed to be nearest to Yavneh College.

2. Criterion 4 states that In the event of over-subscription after each of criteria 1- 3 has been applied, proximity to the School of the child's Home Address as at the deadline for application, will in each of the criteria 1 – 3 be the determining factor.

Methodology

- Each applicant will be measured from their Home Address (using first line and postcode of Home address) to the main entrance of Yavneh College, using the web based-mapping service Mapquest.
- All applicants will be measured to provide their home-to-school distance for ranking purposes. In the event of a tie, random allocation, overseen by an independent adjudicator, will be used to determine who should get the place.

3. General notes

- Mapquest's web-based mapping service will be used for all distance measuring. However, if Mapquest does not recognise the first line of an applicant's home address, the address will be measured by utilising the postcode only.
- Home address is as defined by Hertfordshire County Council.
