

## Windows 7/8/10

If you use Windows (Windows 7 upwards) you can log straight in via the following URL:

<https://citrix.yavnehcollege.org> or via the link on the school website under Remote Access called RemoteApp (D&T Students)

Please use **Internet Explorer** on Windows to access for best compatibility.

The first time you go to the site it should prompt you with a notice 'This webpage wants to run the following add-on 'Microsoft Remote Desktop Services Web Access Con...' from Microsoft Corporation - **click Allow**. If you don't do this it'll end up prompting you again to login when launching an App.

When prompted to login please use this format for the username: **yavnehcollege\your-yavneh-username** and the password will be your Yavneh network password.

 **Yavneh RemoteApp**  
RemoteApp and Desktop Connection

**Help**

Domain\user name:

Password:

Security ([show explanation](#))

This is a public or shared computer

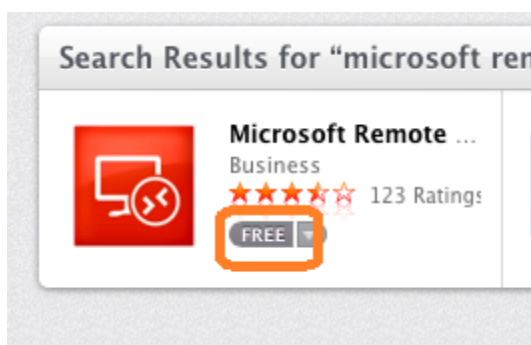

This is a private computer

Click on the app you want to launch. It will prompt you with a warning, you can tick a box to stop this happening each time you click on an app. If you find it downloads a RDP file instead of launching the app, open the file it downloads and the app will launch.

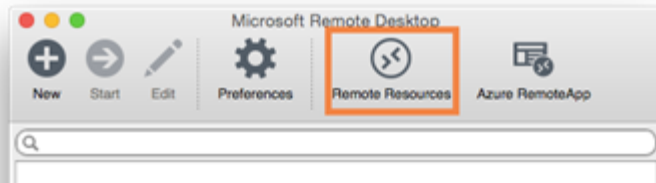

## Apple Mac

To access on an Apple Mac you will need to download the free Microsoft Remote Desktop app from the Apple App Store rather than use the website above.

Once installed, run the Microsoft Remote Desktop app.

## Design & Technology RemoteApp Resources

Click on 'Remote Resources' and fill out the following:

For URL: **<https://citrix.yavnehcollege.org/rdweb/feed/webfeed.aspx>**

Username: **yavnehcollege\your-yavneh-username**

Password: **your-yavneh-password**

Click **Refresh** - This will populate Remote Resources with all the apps for you to launch

You will only need to do the initial configuration above once.
